### **DETAILED ACTION**

1. According to paper filed on Nov. 8, 2004, the applicants have amended claim 13 and furthermore, have added new claims 14-19.
2. Claims 3 and 13-19 are now pending in the application.

### ***Response to Arguments***

3. Applicant's arguments filed on Nov. 8, 2004 have been fully considered but they are not persuasive regarding prior art rejection. The applicants have amended claims to overcome indefiniteness and statutory double patenting rejections. In regard to prior art rejection, the examiner does not agree with the applicants arguments that in Mitsuyuki's reference, substituent on the propyl ring of compound of formula (I) is generally a halogen atom and Mitsuyuki does not recognize the advantage of the substituent being a F atom. This is not true. Actually, propyl ring is indeed substituted with F in all exemplified compounds listed on page 88 including compound 41 ( same compound as claimed in instant application ) as well as in all the compounds claimed in claims 5-7.

### **NEW GROUNDS OF REJECTION**

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1625

In claim 13, line 2, the term ---by a process---is vague and indefinite since it is not clear whether the claim is a method claim or a process claim. The applicants are suggested to delete this term. Also, in line 3, the term ---mammal of fish---is vague and indefinite since its meaning is not clear. The applicants are suggested to replace --of---with --or---.

### ***Double Patenting***

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 14-17 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 6 and 16 of copending Application No. 10/275,972. Although the conflicting claims are not identical, they are not patentably distinct from each other because antibacterial composition or method of treating bacterial infections using hydrate of an acid addition salt of a formula (I a) compound of the cited application is encompassed by the antibacterial composition and method of treating bacterial infections of instant claims.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Conclusion***

8. Rejection of claims 3 and 13-19 under 35 U.S.C. 102(b) is maintained for the reasons of record.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
